6.1-1 Program Survey Report Onsite Survey for Continued Initial Approval of Rasmussen College, School of Nursing, Baccalaureate Degree Program	Discussion: In January 2017 Rasmussen College, SON applied for initial approval to the NDBON for a proposed prelicensure Bachelor of Science in Nursing (BSN) program at the College's Fargo, North Dakota (ND) campus. The BSN program at the Fargo ND location has two prelicensure entrance options, Standard Entrance Accelerated and Second Degree Accelerated BSN, both referred to as the A-BSN. In June 2017 NDBON surveyors completed an onsite survey of the proposed baccalaureate program and granted Initial Approval to the BSN Program in July 2017. Subsequent required compliance and progress reports and the May 2018 onsite survey for continued initial approval, have met NDBON requirements and have provided evidence of the program meeting NDAC, Article 54-03.2 Standards for Nursing Education Programs.	
	As required by NDAC and the NDBON, surveyors completed an onsite survey of the BSN Program May 9, 2019. Eighteen of the North Dakota Administrative Code (NDAC), Article 54-03.2 Standards for Nursing Education Programs were examined for the Rasmussen College, School of Nursing (SON), Accelerated Bachelor of Science in Nursing (A-BSN) Program survey. Upon conclusion of the onsite survey and review of all submitted evidence, surveyors were able to validate all components in NDAC 54-03.2-01 General Provisions as listed. No issues of non-compliance with NDAC 54-03.2 Standards for Nursing Education Programs were identified. No issues of partial-compliance with NDAC 54-03.2 Standards for Nursing Education Programs were identified.	
	Motion from the Nursing Education Committee, Holth seconded by J. Hammer:

6.2-1 United Tribes Technical College, Department of Nursing, Associate Degree Practical Nursing Program: Update Regarding Teach-Out Plan	Discussion: At the December 27 <sup>th</sup> special meeting of the NDBON, the Board moved to approve the notification and plan for voluntary closure of the UTTC AASPN program to be effective May 10, 2019 upon graduation of the last enrolled class. During the teach out phase of program closure the Board required monthly progress reports. Board staff received progress reports as required from the acting program nurse administrator, Dr. D'Arlyn Bauer. All eight students successfully completed program requirements and graduated May 10, 2019. To date 5 of the 8 students have taken the PN licensure examination, with 4 passing and 1 failure. The remaining 3 graduates have test dates scheduled in August. The Board and staff are grateful to Dr. Bauer and Dr. Messmer for their commitment to ensure the 8 students enrolled in the program this spring were able to complete degree requirements with adequate faculty support.	

6.2-2 Sitting Bull College (SBC), Division of Nursing, Associate of Science Practical Nurse (ASPN) Program Compliance Report July 10, 2019	<i>Discussion:</i> Since the last NDBON survey of the SBC ASPN Program in November 2015 the need for additional support staff and faculty have been identified as a critical need and surveyors have consistently found NDAC <u>54-03.2-02-06. Financial Support.</u> to be Partially Met through compliance reports required at least yearly. The May 2017 compliance report the nurse administrator submitted a succession plan that detailed personnel needs and mentorship requirements in anticipation of retirement of the nurse administrator and current faculty by fall 2019. The College continues to advertise for the director position and clinical faculty. There have been several serious inquiries about the faculty position. To date the program has secured Dr. Bauer, who has agreed to continue in part-time capacity as nurse administrator (0.25 FTE) and part-time faculty (0.25 FTE) and Bailey King, LPN, the lab technician part-time. A full-time clinical instructor applicant was interviewed in April 2019 and administration is working with the individual to negotiate the salary and hours to complete a written contract. A master's prepared RN has applied for the faculty position but has not formerly interviewed with administration. An interview date is pending within the next week.
	Surveyors continue to find this standard as Partially Met due to the continued need for additional program personnel and continue to recommend the program and College aggressively recruit for current open staff positions as well as for the director position in anticipation of the retirement of Dr. Bauer. With the hiring of one clinical and one didactic faculty member, the total FTE for this academic year would be 2.25. This FTE continues to be minimally adequate, and efforts to aggressively recruit for a full-time Program director and additional clinical and adjunct faculty must continue to ensure program sustainability and growth which has been stagnate due to administrative obstacles impeding hiring efforts to attain sufficient faculty and support staff for several years.
	<ul> <li>Motion: Holth seconded by M.Johnson to:</li> <li>FIND THE COMPLIANCE REPORT SUBMITTED BY THE SITTING BULL COLLEGE, DIVISION OF NURSING, ASSOCIATE DEGREE PRACTICAL NURSE PROGRAM NURSE ADMINISTRATOR ADDRESSING THE ISSUE OF PARTIAL COMPLIANCE WITH <u>54-03.2-02-06</u>. <u>FINANCIAL SUPPORT</u>. 6.3-1 University of North Dakota, CNPD, DON, Post-Baccalaureate Doctor of Nursing Practice (PB-DNP) Nurse Anesthesia Program, Request for Exception to NDAC 54-03.2-04-08 Employment of Academically Unqualified Faculty	Note: Buettner, yes, Christianson, yes, C. Hammer, yes, Holin, yes, Sonnson, yes, Sonnston, yes, Syes, Orio, Molion Carned. Note: Buettner left the board room for this discussion. Discussion: The University of North Dakota, CNPD, DON, Nurse Administrator is requesting consideration for an exception to NDAC 54- 03.2-04-08 for the Post-Baccalaureate Doctor of Nursing Practice (PB-DNP) Nurse Anesthesia Program. If approved, this exception would allow the UND CNPD to utilize CRNAs with an earned master's degree as faculty in courses within the PB-DNP Nurse Anesthesia program for a period of 5 years. Within these courses, the program has provided assurance that there would be a doctorally prepared CRNA that would be the course director and faculty of record. CRNAs with an earned master's degree hired as faculty would enroll in coursework towards a doctoral degree following 1 year of employment. The 5-year exception time period will allow faculty members time to complete their doctoral education. During this time period, the CNPD will ensure compliance with the 85% rule for academically qualified nursing faculty full-time equivalents. In addition, the CNPD will monitor program quality and outcomes annually through the assessment and evaluation plan and reports to the NDBON.
