SECTION TWO

FISCAL YEAR 2018-2019

Nursing Education Program Summaries

The ND Board of Nursing requires each approved nursing education program to submit a comprehensive annual report. All annual program data submitted is reviewed and evaluated for compliance with *NDAC Article 54-03.2 Standards for Nursing Education Programs*. Required data submitted by program nurse administrators for the comprehensive annual nursing education report aligns with U.S. Department of Education requirements for ND Board of Nursing recognition as a nationally accredited agency for approval of nurse education in North Dakota.

According to *NDAC Section 54-03.2-07-09 (2a.)* ND Board of Nursing approved nursing education programs are reevaluated at a minimum of every five years to ensure compliance with the standards for nursing education. A program that holds national nursing accreditation may seek the Board's approval through a paper survey process if the program received full approval following an onsite survey of no more than five years prior, if quality indicators remain constant as evidenced by the information provided in the NDBON Annual Nursing Education Report submission, and NCLEX pass rate for first-time test takers has remained above 80% in three of the last four years. If a program does not hold national nursing accreditation, an onsite survey is required every five years. Survey information and Board related actions are described in this section of the report.

Statistical data detailed in this report includes each nursing education program's: 1) Progress toward achievement of stated program objectives 2) Qualifications and major responsibilities of the nurse administrator and each faculty member 3) Current enrollment by class and student-teacher ratios 4) Number of admissions per year for the past five years 5) Number of graduates per year for past five years 6) Curriculum plan 7) Descriptions of resources and facilities, clinical areas and contractual arrangements.

A table within this report provides comprehensive information regarding practice facilities utilized by each of the programs. Performance of students on state board examinations is monitored by the ND Board of Nursing quarterly through NCLEX® reports provided by National Council of State Boards (NCSBN®) Pearson VUE Reports. The past five-year NCLEX® statistics are included in the report. The report also includes quarterly data submitted by programs utilizing *NDAC 54-03.2-04-08.1 Faculty Developmental Program* during the fiscal year. The Faculty Developmental Program rules allow programs with Board approval to utilize baccalaureate prepared faculty who are continuously enrolled and progressing in a graduate nursing education program. Programs may have up to fifteen percent of faculty full-time equivalents or one faculty full-time equivalent for a program with seven or fewer faculty who are academically unqualified per NDAC.

Each nursing education program is required to submit a current academic year course catalog. This report includes information throughout that verifies the collection of a current academic year course catalog from each of the nursing education programs. Information verified using the course catalog and referred to within the report includes but is not limited to: national nursing accreditation, student and academic policies, clinical policies including immunization, background check policies, courses, library resources and admission, progression and graduation policies and curriculum design.

A student handbook or program brochure that includes student policies for selection, progression (promotion) and graduation was provided with each program's annual report data and policies and procedures were reviewed and verified. Each program also provided an explanation of the way the program safeguards student health and safety within their report submission and procedures for the safety and wellbeing of enrolled students was reviewed and verified. Finally, each program submitted yearly fiscal budget information that was reviewed for comparison with the most recent survey report and programmatic change requests as applicable.

The following narrative includes budgetary details provided by each program and program related Board actions for the fiscal year including major programmatic changes and notifications, innovative nursing projects, program surveys and/or compliance reports. To request further information, please contact the ND Board of Nursing at contactus@ndbon.org.
